

**Learn More Capabilities**

# Key Concepts in this Unit

---

- Popular tools used with MarkLogic Server.
- Advanced features available within MarkLogic Server.
- Where to find guides and tutorials about MarkLogic Server and its surrounding tools.
- Where to ask and how to reach out.
- Other training available.

# Feature: Alerting application

---

- Create an application capable of notifying users when new or updated content of interest is available in real time.
- Applicable for:
  - Dating application
  - Job posting application
  - Driver-passenger/mobility service application
- See: [sample application](#).

# Tool: Data Hub Framework

---

- Allows for quick configuration of an integration system.
- Pull data across different silos, declare your entity configuration based on data available then curate your data to simplify further integration with you downstream systems.
- Attend: [Data Curation](#) class.
- Watch: [Getting started with Data Hub](#) videos.

# Tools: ml-grove

---

- Stub your “google-like” application in minutes.
- Front-end application available in VueJS and ReactJS.
- Read: [getting started](#) guide.

# Lab: Spin a grove instance

# Guides and documentation

- Check out the guide and product documentation available at <https://www.progress.com/marklogic/documentation> .
- Try the available tools over at [github](#) and other [community supported](#) tools.
- See technical blogs and videos at [developer.marklogic.com](https://developer.marklogic.com) .
- Community Portal <https://community.progress.com/s/products/marklogic>
- Look for anything MarkLogic at [globalsearch.marklogic.com](https://globalsearch.marklogic.com) .
- Or ask the experts at [stackoverflow](#) and tag them as “marklogic”.
- Attend other available classes listed over at [mlu.marklogic.com](https://mlu.marklogic.com).
  - Or go at your own pace at [mlu.marklogic.com/selfpaced](https://mlu.marklogic.com/selfpaced).
- Assess your learning over at [mlu.marklogic.com/assessments](https://mlu.marklogic.com/assessments).

# Community Portal

Portal Link

<https://community.progress.com/s/products/marklogic>

A screenshot of the MarkLogic Community Hub website. The header includes the Progress Community logo and navigation links: Home, Product Downloads, Product Forums, Product Hubs (selected), Support, and Resources. A search bar and a Log in button are on the right. The main content area features a blue banner for the MarkLogic Community Hub. Below the banner, there are several sections: 'Top MarkLogic Articles' with links to various technical topics; 'Be a Thought Leader' with options to connect with the community; 'New Releases! - Server 11.1.0 and Python Client API v1.1.0' with a button to check out forum details; 'Latest Forum Activity' showing recent discussions; 'Social Media' links for MarkLogic Forum, Facebook, Twitter, LinkedIn, Instagram, and YouTube; and 'Virtual Events'. The footer contains the Progress MarkLogic logo and a copyright notice.

# Ideas Platform

Ideas Platform Link

<https://progressdataplatform.ideas.aha.io/ideas>

### Data Platform Ideas

Your portal to submit new ideas (enhancement requests) for Progress MarkLogic and Progress Semaphore. Anyone can submit and vote on ideas, and these will be reviewed and prioritized by the Product Management team in accordance with the published [Ideation Policy](#). If you submitted or subscribed to an idea, you will get automatic email notifications of comments and significant status changes.

#### Use SharePoint Online Permissions for Classification

As a SharePoint Online user we would like to use document permissions to determine what Semaphore classification tags are assigned. For example, if the document is writeable by the "Sales" group we want this fact impact what tags are assigned by S...
